

Global FundWomen Week 2021

Virtual Conference
20-24 September 2021

The largest global, virtual conference introducing world-class institutional investors to female managers.

Investment Management has a Gender Problem.

Female fund managers make up only 14% of the industryⁱ and manage only 2% of all assetsⁱⁱ despite performing in line with or even outperforming all male teamsⁱⁱⁱ.

Smaller, emerging managers often cannot afford the investment required for global network building. Global FundWomen week levels the playing field for emerging female managers by requiring no fees for participation, and connecting allocators and managers for 1:1 meetings.

Global FundWomen Week – a vehicle for change

100WF addresses the under-representation of women in investment roles and seeks to evolve the public perception of what an investment expert looks like. It is our hope that by increasing the visibility of today's female investment managers, we are also motivating the next generation of female investment talent to aspire to these roles.
