100 Women in Finance (100WF) is committed to building a more diverse and gender equitable finance industry. We achieve our mission by promoting diversity of thought, raising visibility, and empowering women to find their personal path to success.

We connect women at every career stage, from pre-career to senior practitioner, and encourage the development of life-long relationships and the sharing of knowledge, resources, and expertise.

Vision 30/40

100WF has a guiding vision for women to make up 30% of investment teams and finance industry executive positions by 2040. It is a goal that we ask the industry to take part in to reach more women who are already in finance and to advocate for a new generation of industry leadership.

We are proud to have many individuals and organizations join us in this effort, some of whom sponsor our initiatives through programs such as our CEO Circle, which focuses on strategic initiatives aimed at exploring new ideas and locales and to promote diversity of thought in our industry.
