

Women in Finance®

Driving Progress Together: 2025 Mid-Year Highlights

The first half of 2025 has been a time of renewed energy and transformation at 100 Women in Finance. With new leadership guiding the organization, we have embraced fresh ideas, collaborative styles, and bold thinking about where we are headed. This period has been marked by a great deal of listening and reflection, with our committed team, volunteers, board, and partners who make our mission possible. There is so much pride in all we have accomplished and excitement about what lies ahead.
